

TCA

T = Large Toroidal core power transformer
 O = Oxygen free copper coil audio filter used in the power amp. section.
 CM = Center mount CD transport/clamp

BB = Burr Brown DACs
 DDVS = Dolby digital virtual surround

AK = AKM DACs
 SR = Shunt regulator
 ELNA-S = Electrolytic caps/resistors + Schottky barrier diode in the rectifier

LPS = Linear power supply

CATEGORY - MODEL	AM/FM	Wired + wireless LAN/Stereo global Internet radio streaming	iPod digital direct data stream *****	MM phono stage	Audio streaming from PC in compressed and lossless (wave/wav)formats	Sub-woofer output	Power output @ 4 ohms	Power output @ 8 ohms	DACs	USB MP3 multi-source input (play) / output (record) including phono to digital MP3	Cradle (iPod)	Other	Inputs
