- Full linux operating system. Network and Internet functionality included.
- Complete Windows Management software with GUI for feedback analysis, detailed log files and status report.
- Self-contained PC system with hard drive.
- Stand-alone operation or Computer-Controlled.

TEAC's new T-1000A flash duplicator is a simple to use, yet very powerful Full Feature Production USB Flash Duplication machine!

T-1000A can be run completely from its front panel using a 4-key input and the LCD status screen. A comprehensive GUI provides the means of using the large removable Hard Drive, LCD Display, Keyboard and Mouse (KVM Module) for defining simple or complex user defined jobs.

Multiple copy modes such as Image copy and File copy along with production synchronous modes allow either simple or complex control of the production process. Production statistics such as serial numbers and error information are automatically stored for every job.

You can start with only the T-1000A, 1x10 Flash duplication. Add another if you need to do 20 copies (T-2000A), another for 30 (T-3000A) and one more for 40 unit duplication (T-4000A). It is as simple as that. These units are stackable and they come complete with all cables, monitor, keyboard and mouse to make it as easy as 1-2-3!

### Part Number and Description

**T-1000A:** 1x10 Slot Advanced USB Duplicator

**T-2000A:** 1x20 Slot Advanced USB Duplicator

**T-3000A:** 1x30 Slot Advanced USB Duplicator

**T-4000A:** 1x40 Slot Advanced USB Duplicator
